

ACTIVE FIRE AND SAFETY
SERVICES LTD

Fire Safety Compliance *Checklist*

For Property Managers & Owners

FIRE EXTINGUISHERS

- Ensure all extinguishers are inspected annually
- Confirm proper placement and accessibility
- Train staff on correct usage

FIRE ALARM SYSTEMS

- Schedule routine testing and maintenance
- Replace outdated or malfunctioning components
- Keep documentation of all inspections

EMERGENCY EXITS & LIGHTING

- Verify exit signs are illuminated and visible
- Ensure pathways are clear and unobstructed
- Test backup power systems regularly

SPRINKLER SYSTEMS

- Conduct quarterly and annual inspections
- Check for leaks, corrosion, or blockages
- Maintain records of all service reports

DOCUMENTATION & TRAINING

- Conduct quarterly and annual inspections
- Check for leaks, corrosion, or blockages
- Maintain records of all service reports

Bonus Tip: Fire codes can vary by municipality and building type. Partnering with a certified fire protection company ensures you're not just compliant—but proactive.
